

VISION

Our vision is to empower leaders to fulfill their God-given vision by providing bookkeeping services to churches of all sizes. We help our clients to better steward their resources and increase their impact on the communities and people they serve.

HISTORY

Justin Spicer founded Empower Consulting in 2014 to provide bookkeeping and financial consulting solutions to churches. As former executive pastor and non-profit CFO, he saw the need for user-friendly reporting and simple, cloud-based financial systems that empowered organizational leaders to grow their organizations. Since then, our Dallas-Fort Worth, TX-based firm has grown to include multiple staff serving over eighty churches across the country. Learn more on our website at empowerconsulting.net.
